Aug 2023 - Sep 2023 Yogyakarta, Indonesia

PROJECTS

Laundry Web App - Bubblify  Collaborated in a team of two to develop a multi-role e-commerce laundry web app with real-time order tracking and role-based workflows. - Focused on Driver & Worker Management: built features for attendance tracking, role-specific dashboards, and job history logs. - Implemented daily check-in/check-out system for workers and drivers, including admin-side performance reports. - Developed single-task enforcement logic to prevent drivers from handling multiple orders at once. - Created workflow for washing, ironing, and packing stations with input verification and admin-approved bypass mechanism. - Enabled history viewing for all job-related activities per user. - Worked closely with team partner to ensure data consistency across roles and handled edge case validations.	Jun 2025 - Jul 2025
Event Management Platform - Eventure  Built a full-stack event platform with role-based access, dynamic event creation, and transaction flow. - Implemented authentication, protected routes, and role-based access for customers and organizers. - Developed event creation, browsing, and search with filters, responsiveness, and debounce. - Created a transaction system with countdown, proof upload, and auto status updates (expire/cancel). - Enabled referral system, reward points, and coupon discounts with expiration logic. - Designed dashboard for organizers to manage events, track transactions, and view attendee lists. - Applied SQL transactions for rollback-safe operations and ensured seat/point restoration.	Mar 2025 - Apr 2025
Documentary Video  - Conducted thorough research on the subject matter to ensure an accurate and compelling narrative for the documentary. - Developed a comprehensive list of interview questions tailored to elicit insightful and relevant responses from various interviewees. - Helped capture diverse perspectives and valuable insights from the interviewees, enriching the documentary's content.	Feb 2023 - May 2024
Web Series  - Developed and refined the core concept and storyline for "Meatlovers," resulting in a cohesive and compelling narrative that kept viewers hooked from episode to episode. - Wrote original scripts for each episode, maintaining consistency with the overall theme and tone of the series, - Conducted thorough research to ensure accuracy and authenticity, added depth and credibility to the storyline	Sep 2022 - Jan 2023

- Adapted to changes in the production schedule and delivered scripts in a timely manner, ensuring no delays in the production timeline.
